email: info@flixtank.com
tel: 86-15523572768

GROUND POOL

top open water tank

Pillow Tank:
Only for fire water storage,
can be setup very soon.

EASY TO USE

unfold, fill, done

CUSTOM AVAILABLE

size ranges from 25gal to 250,000gal,
various standard sizes, and custom available.
Including the fabric, size, fittings, support,
accessories.

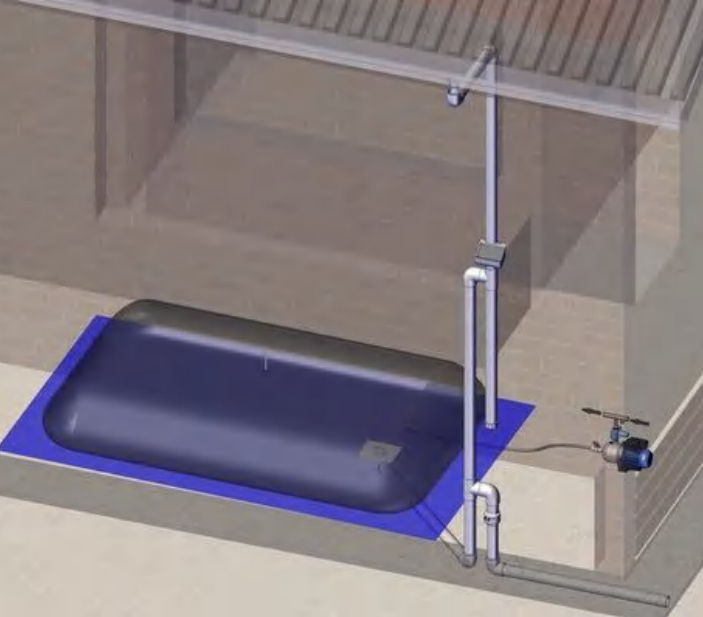

FIREFIGHTING WATER TANK

Fire Water Tank uses for firefighting water
Storage and Transfer, emergency water tank
for industrial, residential, agriculture.
We have 3 types optional.

Onion Tank:
Easy to transport, no install,
self-supporting, top open.

Rainwater Collection

RESIDENTIAL RAINWATER HARVESTING

rainwater as water source for garden sprinkler system, washroom, irrigation, drinking water(after water treatment), etc.

INDUSTRIAL RAINWATER COLLECTION

rain water for firefighting water storage, spinkler to reduce the dust, washroom, drinking water storage(after water treatment), etc.

POTABLE WATER TANK

When we say, a container is for drinking water storage; it must be food grade. Flixtank potable water storage tank meets the FDA, and the production process obeys the GJB4219A, 2013, military standard.

Emergency Water Supply

Marine Chemical Containment

COMPATIBLE

High quality, compatible to acid and mild liquid storage. Also compatible to seawater.

CUSTOM AVAILABLE

The fabric material, the shape, the fittings can be customized.

Let us know more details on working condition, we will make designs to you.

NON-POTABLE LIQUID TANK

Flexible Bladder Tanks (Pillow Tanks) use as various liquid storage containment: water storage, including the potable water; because we have other types of materials for different usages: chemical storage, like wastewater treatment; fuel storage, military standard. Then pillow tanks widely use in Residential, Industrial, Agriculture for Liquid Storage.

Pool Solution

Heavy Duty sheet,
more flexibility,
lighter,
stronger.

FLEXIBLE

can be folded in carton, when empty.

EXTREME WORKING ENVIRONMENT

the working temperature ranges -40 to 90 degree.

LARGE LOADING CAPACITY

in same condition, the flexible tank can load more.

FRAC TANK

Frac Tank is a large, movable, liquid storage tank. Because fracking tank mosly uses in industrial and construction site for hydraulic fracturing, then also call fracking tank.

HOW FRACKING TANK WORKS?

- using frac tank to hold water(proppant).
- connecting the tank by pipe with pump.
- pumping water(proppant) at high pressure down to the wellbore.
- the water(proppant) pushes open the formation and keeps open.

Safety: military standard.
Small Package.
Easy to Use.

FUEL STORAGE

Diesel, Petrol, Jet Fuels(includes JP-8, Crude Oil, Biofuel, and other compatible liquid fuel).

CUSTOM AVAILABLE

The shape can be customized based on the working place.

FUEL TANK

Flexible Fuel Bladder(Pillow Tank) designs for short or long term fuel storage and transportation; widely uses in storage of Diesel, Petrol, Jet Fuels(includes JP-8, Crude Oil, Biofuel, and other compatible liquid fuel).

- Diesel/ Petrol Fuel Storage
- Jet Fuel Storage in the Aircraft
- Fuel Storage for the Construction Site
- Auxiliary Diesel/ Petrol Fuel Tank in the Boat
- Military Diesel/ Petrol Fuel Storage & Transportation
- Marine Diesel/ Petrol Fuel Storage
- Mining Fuel Storage
- Emergency/Disaster Fuel Containment

Scientific RAS

NO LIMITED ON SPACE

no matter big or small place, the fish farming tanks fit.

INCREASING CULTURE DENSITY

in RAS, this is the most scientific way of breeding.

BETTER WATER QUALITY, LESS FISH DEATH

microbial balance, water recycling, better environment to fish farming.

FISH FARMING TANK

Aquaculture often refers to the RAS-recycling aquaculture system, it's a type of man controlled system to breed fish/shrimp in a scientific way.

UV Resistant;
Indoor/ Outdoor Biofloc Farming

THANK YOU!
