BLADDER TANK

water, fuel, chemical
storage and transportation

FLIXTANK

bladder

PRODUCTION

High frequency pressure machine

FUEL STORAGE BLADDER

BENEFIT OF A FUEL STORAGE BLADDER

When we say flexible fuel bladder is a good choice for fuel storage, and we really mean it.

Strong: The material of the portable fuel tank is heavy duty multi-layer sheet, the corners and edges are reinforced for longer and durable performance of the fuel cell bladder.

Safe: Durable material used to the diesel tank, gasoline tank; and professional machines and workships keep the level-1 fuel bladders. Meets GJB4219A, 2013.

Easy Use: Unfold, Fill, Done, just minutes to set up fuel bladders.

Small Package: Small package can help you to save a lot on shipment.

Safety: military standard.
Small Package.
Easy to Use.

FUEL STORAGE

Diesel, Petrol, Jet Fuels(includes JP-8, Crude Oil, Biofuel, and other compatible liquid fuel).

FUEL TANK

Flexible Fuel Bladder(Pillow Tank) designs for short or long term fuel storage and transportation; Easy to Use: Unfold, Filling, Done. Flexible Fuel Storage Tank widely uses in storage of Diesel, Petrol, Jet Fuels(includes JP-8, Crude Oil, Biofuel, and other compatible liquid fuel).

Collapsible Fuel Tank, using Heavy Duty sheet, more flexibility, less weight, more durable; eg: 10m³ tank only 0.25m³ packing.

Each Fuel Cell Bladder go through air pressure tested and approved before shipment, Safe, Reliable are our purpose.

Fuel Bladder Tank Uses:

- Diesel/ Petrol Fuel Storage
- Jet Fuel Storage in the Aircraft
- Fuel Storage for the Construction Site
- Auxiliary Diesel/ Petrol Fuel Tank in the Boat
- Military Diesel/ Petrol Fuel Storage & Transportation
- Marine Diesel/ Petrol Fuel Storage
- Mining Fuel Storage
- Emergency/Disaster Fuel Containment

FUEL STORAGE (Bladder)

SPECIFICATION

Model: YKT-7500	
Material	TPU Coating Fabric
Material Thickness	1.417 mm
UV Resistance	30-70°C
Type	Heavy Duty Material
Capacity	7500 Ltrs

- Foldable Square Shape Fuel Storage Bladder

Accessories for Model: YKT-7500

Repair kit- 10 X patches and glue

Anodized Aluminium Fittings Complete Set

Equipped with all fittings:
 Inlet: Flange, F-Fitting, DC Cap
 Outlet: Flange, Ball Valve, A-Fittings, C-Couplings and more

FUEL STORAGE (Bladder)
Accessories for Model: YKT-7500

1 mm Ground Sheet to Cover the Ground Area of Bladder

FUEL STORAGE (Bladder)

Delivery Pump

- 220V 50 HZ Delivery Pump have 133 LPM (8m³/h) flow rate with delivery pipe of length 10m
- Have flowmeter and delivery nozzle

Model : DYB-80 Fuel Pump

Ex-Proof Fuel Pump Specification

Delivery Pipe with fittings

Length: 10 meter

Item	Feature
Brand	Zhunwang
Model	DYB-80
Power rate	550w
Max flow rate	8m ³ /h
Voltage	220v, 50HZ
Application	Diesel pump(anti-explosion)
Lift distance	15m
Suction distance	5m
Port size	1inch
Explosion Proof Level	ExddiBT4GB/F

OTHER BLADDER TANK TYPES

PILLOW TANK
FIREFIGHTING
WATER TANK
FRAC TANK
FISH FARMING TANK
POTABLE WATER TANK
NON-POTABLE
LIQUID TANK
&
OTHER VARIOUS TANK
TYPES
AVAILABLE IN FLIXTANK

Pillow Tank:
Only for fire water storage, can be setup very soon.

EASY TO USE

unfold, fill, done

CUSTOM AVAILABLE

size ranges from 25gal to 250,000gal, various standard sizes, and custom available. Including the fabric, size, fittings, support, accessories.

FIREFIGHTING WATER TANK

Fire Water Tank uses for firefighting water Storage and Transfer, emergency water tank for industrial, residential, agriculture. We have 3 types optional.

Onion Tank:
Easy to transport, no need installation, self-supporting, top open.

Heavy Duty sheet,
more flexibility, lighter,
stronger.

FLEXIBLE

can be folded in carton, when empty.

EXTREME WORKING ENVIRONMENT

the working temperature ranges -40 to 90 degree.

LARGE LOADING CAPACITY

in same condition, the flexible tank can load more.

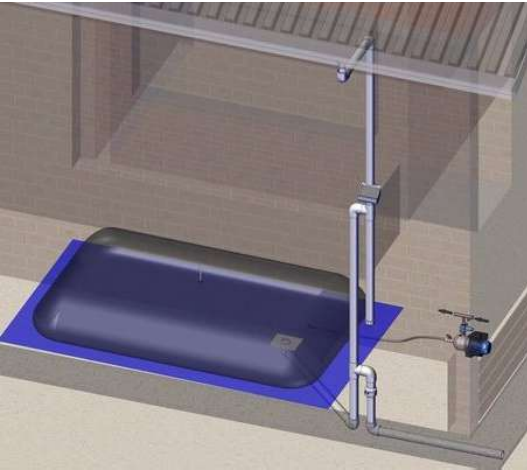

FRAC TANK

FIfrac Tank is a large, movable, liquid storage tank. Because fracking tank mostly uses in industrial and construction site for hydraulic fracturing, then also call fracking tank.

HOW FRACKING TANK WORKS?

- using frac tank to hold water(proppant).
- connecting the tank by pipe with pump.
- pumping water(proppant) at high pressure down to the wellbore.
- the water(proppant) pushes open the formation and keeps open.

Rainwater Collection

SOAK IT UP

The best part about brochures is their weightlessness, because they use only a single page.

THE BEACHES

After sharing a bit about the destination, take the time to impart key knowledge on getting around. Put in some tips .

POTABLE WATER TANK

When we say, a container is for drinking water storage; it must be food grade. Flixtank potable water storage tank meets the FDA, and the production process obeys the CJB4219A, 2013, military standard.

Emergency Water Supply

Marine Chemical Containment

COMPATIBLE

High quality, compatible to acid and mild liquid storage. Also compatible to seawater.

CUSTOM AVAILABLE

The fabric material, the shape, the fittings can be customized.

Let us know more details on working condition, we will make designs to you.

NON-POTABLE LIQUID TANK

Flexible Bladder Tanks (Pillow Tanks) use as various liquid storage containment: water storage, including the potable water; because we have other types of materials for different usages: chemical storage, like wastewater treatment; fuel storage, military standard. Then pillow tanks widely use in Residential, Industrial, Agriculture for Liquid Storage.

Pool Solution

Scientific RAS

NO LIMITED ON SPACE

no matter big or small place, the fish farming tanks fit.

INCREASING CULTURE DENSITY

in RAS, this is the most scientific way of breeding.

BETTER WATER QUALITY, LESS FISH DEATH

microbial balance, water recycling, better environment to fish farming.

FISH FARMING TANK

Aquaculture often refers to the RAS-recycling aquaculture system, it's a type of man controlled system to breed fish/shrimp in a scientific way.

UV Resistant;
Indoor/ Outdoor Biofloc Farming

FLIXTANK

THANK YOU!
